Sales Contract No. 0405V_20_SB

Subject: Sunderland City council request – Environmental Health

Regarding our scope of supply, the following are the details:

- Thermal Output 1,8 MW
- Emissions guaranteed in the contract:

Dust	30 mg/Nm ³
CO	350 mg/Nm ³
NOx	500 mg/Nm ³
SOx	200 mg/Nm ³
<i>Values referred to 11% of oxygen</i>	

- Chimney: the chimney is 12 m high for a diameter of 500 mm and is insulated. The system is under pressure, not with natural circulation, so the height of the chimney is not influential.
- Fume filtration system with bag filter and cyclone to comply with guaranteed emissions.
- Noise: The noisiest device is the fume extractor which records a maximum of 87 dB at a distance of one meter from the device inside the building.

Thanks

Best Regards
