Your Ref: P/2021/0145

Dear Sir/Madam,

Site: New House Farm, Arowry Lane, Eglwys Cross
Development: Additional Slurry Storage Compacity

We refer to your planning consultation relating to the above site, and we can provide the following comments in respect to the proposed development.

This planning application falls within a Drinking Water Protected Area under article 7 of the Water Framework Directive. This article requires the UK to take action to protect drinking water sources. Section 7.3 states that the aim is 'to avoid deterioration in water quality where this may lead to additional purification treatment being required'. The proposed development falls within the DCWW Drinking Water Catchment known as River Dee. The development site is approximately 170m from the nearest watercourse.

We presume that all best practice guidelines will be followed with respect to the commissioning, management, and maintenance of this slurry store and that it will meet SSAFO standards. Provided these standards are met we have no objection to the proposed development.

Our response is based on the information provided by your application. Should the proposal alter during the course of the application process we kindly request that we are re-consulted and reserve the right to make new representation.

If you have any queries please contact the undersigned on 0800 917 2652 or via email at developer.services@dwrcymru.com

Please quote our reference number in all communications and correspondence.

Yours faithfully,

Rhodri Perry
