

CCTV Project Caia Park

Wrexham County Council

Prepared for: Aled Pugh Jones / Stuart Humphries

Prepared by: Wynn Noden (iViD)

Date: 24th February 2021

Ref: Dahua PTZ Camera Privacy Masking

Dear Aled / Stuart

Just to confirm that all new PTZ cameras that will be installed in Caia Park come with the **Privacy Masking** Feature as Standard, this allows you to set customized Privacy Zones (Blocks) that the camera will not be able to see. Multiple Privacy Zones can be defined and it then applies to both live view and recorded video. These Privacy Zones work dynamically so if a camera is pointed to an area where there is a Privacy Zone, the block activates.

Please see example below:

- **Privacy masking (OSD)** is a function used to cover some block on the video scene and the block will only mask on the specific scene.

If you require any further information, please do not hesitate to contact me.

Kind regards

Wynn Noden (iViD)
