NB: Sewer symbol colour indicates the type: - RED - Combined - GREEN - Surface water - BROWN - Foul			Private Sewer Transferee
			Lateral Drain
			Inspection Chamber

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Deir Cyber Cyllyngdy (The Company) gives this information as to the position of its underground apparatus by way of general guidance only and is not to be construed as a warranty. The information is based on the best information available and no warranty is given by the Company as to its correctness in relation to the event of excavations or other works made in the vicinity of the company's apparatus. The usual of locating apparatus before carrying out any excavations must entirely on you. The information which is supplied by the Company, is done so in accordance with statutory requirements of sections 193 and 195 of the Water Industry Act 1991. The Company does not accept any liability for any damage or loss of any kind that may be caused by the use of the foregoing. It should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, lateral drain or disposal main and any associated apparatus laid before 1 September 1989, or if they do, the particular details of the apparatus may not be accurate. It must be understood that the furnishing of this information is entirely without prejudice to the provision of the New Roads and Street Works Act 1991, or the Company's right to be compensated for any damage to its apparatus.

Service sites are not necessarily shown but their existence should be anticipated.

EXACT LOCATIONS OF ALL APPARATUS
TO BE DETERMINED ON SITE.
