

Existing trees and hedgerows retained

New hedgerow and structure tree planting around the periphery of the site to reduce views and create continuous wildlife corridors

Existing footpath route

Footpath network through the central open space linking to public footpaths outside the site

Central public open space with play areas

Tree, shrub and hedgerow planting within plots to soften the built form and integrate the development into the wider landscape

Project Name: Hillock Lane, Gresford
Project Number: 3377 Rev A
