Re: Five Fords Glasshouse Wrexham – GCM mitigation management and monitoring

Dear Sarah,

Thank you for contacting us regarding the GCN mitigation scheme for Five fords Glasshouse Wrexham.

We are very interested in forming an agreement with both you and the landowner in taking on the core management and future monitoring of the four mitigation areas proposed for this development.

We own, manage and monitor a number of GCN mitigation sites within North East Wales and this would be a great addition to our growing portfolio of sites and partnerships.

Kind regards,

Mandy Cartwright
North Wales Officer
Amphibian and Reptile conservation Trust
