

Planning reference:P 2020 0587

Dear who May concern,

In regards to the appeal about 6 fox close, summerhill, Wrexham LI114qh All the work that has been taken out has been done very professionally to a very high standard the fences are no higher to the ones that were already there they've extended the garden to the land they have bought and they have left the bit That is alongside Celtic Roadhouse, Even though they own it they thought it would be rude to take it. In regards to privacy I can see in the house in Celtic from my garden As the same as number six, We are a lot higher than them so we can see into the gardens not that we stand there looking into them. The allegation of fly tipping is false as they had a massive skip on the drive and all the fly tipping that went on is from [REDACTED]. Before Mr Price moved in I made several complaints to Wrexham Council/ gower/ local counsellor about the trees and the state of the land No one has ever check the trees or maintained the bit of land which causes a lot of mess on my property and as myself and my husband [REDACTED] it's really hard to always keep tidy. Know the work has been done it's a lot better less mess and looks a lot more tidy, and as they has put extra drive way it's a lot easier to reverse my car on my drive. They have always Inform me of any work that is going on and never cause a disturbance. Maybe in gower maintained their land people wouldn't buy it as the tree was hanging over their house blocking all the sun, It was a matter of time before it fell down on the house.

Regards
Carly Murphy
