Morning Sharon,

We have now had opportunity to prepare drawings for the retained outbuildings at the above mentioned site.

We are proposing part demolition of the structures, making use of the more substantial units, installing cladding were required and securing them. Entrance doors are proposed to provide access to the unit.

The intention is to store materials and equipment, the retention of the structures in their form and elevational treatment will not have a detrimental effect on the area.

I trust with this information you are now in a position to move the application forward.

Should you require anything further please don't hesitate to contact me.

Kind regards

Dafydd Edwards ACIOB
