Dear Sir/Madam,

PROPOSAL: Siting of shipping containers and external alterations to building

LOCATION: Caia Park Centre, Prince Charles Road, Wrexham

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 30/09/2020.

We have no objection to the proposed development as submitted and provide the following advice.

Land Contamination

We confirm that development site is located on The Dunks historic landfill site and 206m from Bala Road historic landfill site.

In our view, the controlled waters at this site are not of the highest environmental sensitivity, therefore, we will not be providing detailed site-specific advice or comments with regards to land contamination issues for this site.

However, we do have reason to strongly suspect that contamination is present, and a preliminary risk assessment has not been submitted. In line with the advice given in Planning Policy Wales we understand that the Authority must decide whether to obtain such information prior to determining the application or as a condition of the permission.

Natural Resources Wales recommends that developers should:

- Follow the risk management framework provided in CLR11, Model Procedures for the Management of Land Contamination, when dealing with land affected by contamination.

- Refer to the Environment Agency's '[Guiding Principles for Land Contamination](#)' for the type of information that we require in order to assess risks to controlled waters from the site. The Local Authority can advise on risk to other receptors, such as human health.
- Refer to our [groundwater protection](#) advice on www.gov.uk

Protected Species

We note that there is no information about protected species with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

Advice for the Developer

Flood Risk:

Wrexham County Borough Council drainage department in their capacity as lead local flood authority may be able to advise on any local problems in relation to surface water disposal and any associated flood risk.

Environment Management:

All works at the site must be carried out in accordance with PPG6: 'Working at construction and demolition sites' which are available on the following website:

<http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

The activity of importing waste into the site for use as, for example hardcore, must be registered with Natural Resources Wales as an exempt/permittable activity under the Environmental Permitting Regulations 2016. The developer should contact Natural Resources Wales to discuss the necessity for an exemption/permit for any material imported to and exported from the site.

If during construction/excavation works any contaminated material is revealed, then the movement of such material either on or off site should be done in consultation with Natural Resources Wales. Any waste excavation material or building waste generated in the course

of the development must be disposed of satisfactorily and in accordance with Section 34 of the Environmental Protection Act 1990. Carriers transporting waste from the site must be registered waste carriers and movement of any Hazardous Waste from the site must be accompanied by Hazardous waste consignment notes.

If you have any queries on the above, please do not hesitate to contact us.

Yours faithfully,

Joy Evans

Cynghorydd - Cynllunio Datblygu / Advisor - Development Planning
