Dear Mrs Harriman,

**TREE
SURGERY**

Further to my recent visit I have pleasure in submitting my quotation of £940.00 plus VAT for tree work as follows.

FELLING

Location: Above address.

Tree species: Walnut, Purple Plum and Ash.

PLANTING

Works required: Crown raise the Walnut tree over the garden and adjacent drive.

Reduce the longer regrowth of the Purple Plum back to the previous pruning points.

Dismantle and section fell the Ash tree and poison the stump to prevent regrowth.

Some of the Conifer branches from the neighbouring tree will have to be reduced to allow dismantling of the Ash tree.

ADVICE

**STUMP
GRINDING**

This quotation includes the chipping and removal of all arisings making the site tidy of our work. All woodchip to be removed with the timber cut into manageable sizes to remain on site.

I anticipate the work will require one and a half days to complete as the Ash tree requires dismantling using ropes with a lowering device that does take more time although eliminates any damage as all lowering is controlled.

I trust that this quotation is satisfactory and look forward to hearing from you in due course.

Thank you for inviting me to quote for your tree work, if you have any further queries please do not hesitate to contact me.

Yours sincerely

Jonathan Twiss
