Mared

The alignment of Penley public footpath 24 is affected by this development – please see attached plan. The parking area for unit A will obstruct the footpath and the footpath passes through the garden area of unit A, which appears to have a boundary feature separating it from the parking area which would also obstruct the footpath.

I cannot support the development in its current form, but the applicant can apply for a diversion, subject to a suitable alternative route being agreed. If the applicant wishes to discuss a diversion, please pass them my contact details.

Regards

Sean Hanratty
