Re: Purposed sewage system and drainage field at
Cefncoed, Glyn Ceiriog, Llangollen LL20 7BY.

As a drainage specialist following a site visit, I recommend that installing a 9200 litre septic tank and a drainage field would be most suitable for the purposed site.

Looking at the site, we discovered the ground was a loam type soil with a mixture of rocks in it, which would be perfect for a soak away.

When surveying the site, there is sufficient room for us to construct a drainage field, also taking into account of maintaining a distance of more than 50 metres away from any watercourse with ease.

If you would like any further information do not hesitate to contact me on 07703606139.
