

## MILKING PARLOUR & HANDLING AREA

Architectural drawing of a proposed dairy shed layout. The drawing shows a long building with a gabled roof, a feed bin on top, and various internal divisions. Labels include: 'feed bin', 'proof fibre cement roof', 'steel cladding green', 'open access to milking parlour', 'collecting yard', 'parlour gate', 'collecting yard (behind), exit handling (side)', and 'blocks'. Dimensions are given in meters: 8000, 13750, 5750, 3250, 4890, 11820.

Side elevation drawing of a dairy shed. The drawing shows the following features and dimensions:

- collecting yard (in front), exit handling (side)**: A fenced area on the left with a cow standing.
- milking parlour EXIT**: The main milking area with two cows.
- parlour pit**: A small rectangular pit in front of the milking parlour.
- feed bin**: A tall structure on the right side of the shed.
- steel cladding green**: The main body of the shed.
- profs fibre cement roof**: The roof of the shed.
- blocks**: A paved area in front of the shed.
- Dimensions**:
  - Overall width: 11820
  - Width of milking parlour area: 5750
  - Width of shed body: 13750
  - Width of feed bin area: 8000
  - Height of shed body: 3250
  - Height of feed bin: 4510

Architectural elevation drawing of a farm building complex. The drawing shows a long building with a corrugated metal roof and various sections. From left to right, there is a 'collecting yard' with a fence and two cows, a 'feed bin' with a height of 4890, a 'Tank room', a 'steel loading green' with a height of 3250, a 'stores' section, an 'Office', and a 'steel cladding green' with a height of 4510. The building has a 'pro6 fibre cement roof'. Dimensions are given for various sections: 21750 for the collecting yard, 62000 for the total building length, 25000 for the section from the feed bin to the end of the stores, 10000 for the section from the end of the stores to the end of the steel cladding green, and 4572 for the final section. A 'curb' is indicated along the front of the building.

Architectural elevation drawing of a Milking Parlour and Collecting Yard. The drawing shows a long building with a 'profi fibre cement roof' and 'steel cladding green'. The building is 25000 units long. To the left is a 'curb' area 4572 units wide. To the right is a 'COLLECTING YARD' 21750 units wide. The total length is 62000 units. Dimensions for heights are 4510, 3250, and 4890. The drawing includes illustrations of cows and a 'feed bin' on the roof.
