14/09/2020

Annwyl Syr/Madam / Dear Sir/Madam,

PROPOSAL: CONVERSION OF BARN TO DWELLING AND ERECTION OF DOUBLE GARAGE

LOCATION: MOSS BANK FARM, BORRAS ROAD, BORRAS, WREXHAM

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 26/08/2020.

We have no objection to the proposed development as submitted and provide the following advice.

Protected Species

We note that the bat Ecological submitted in support of the above application (Susan Worsfold. Bat Activity Survey and Reasonable Avoidance Measures for Great Crested Newts, August 2020, ref MOS310520) has identified that bats are present (foraging and commuting) at the application site. From the information submitted, we consider that the proposed development represents a lower risk for bats, as defined in our guidance document '*Natural Resources Wales Approach to Bats and Planning (2015)*'. Bats and their breeding and resting places are protected under the Conservation of Habitats and Species Regulations 2017.

As this is a lower risk case for bats, we consider that the development is not likely to be detrimental to the maintenance of the population of the species concerned at a favourable conservation status in its natural range.

Furthermore, we advise that the proposed development is not likely to harm or disturb bats or their breeding sites and resting places as detailed in the report.

We would welcome the inclusion of the report in the 'approved list of plans / documents' condition within the decision notice should consent for the project be granted in order to secure the recommendations in the report.

Due to the proximity of the site to some ponds, we welcome the discussion of Great Crested Newt avoidance measures in the report. We also note the records of bats (foraging and commuting) in the area, and therefore we would welcome the inclusion of the report in the 'approved list of plans / documents' condition within the decision notice should consent for the project be granted in order to secure the recommendations in the report.

Please consult us again if any further information shows that this is no longer a lower risk case.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

Advice for the Developer

Foul Drainage

If a private drainage solution is to be progressed, the Applicant will need to apply for an Environmental Permit from us. It is important to note that a grant of planning permission does not guarantee that a permit will be granted, should a proposal be deemed to be unacceptable (either because of environmental risk or because upon further investigation, a connection to mains sewer was feasible). The Applicant is therefore advised to hold pre-application discussions with our Permitting Team on 0300 065 3000, at the earliest opportunity, to try to ensure that there is no conflict between any planning permission granted and the permit requirements.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully

Garmon Lewis
