Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 20/03/2020.

Protected Species

We note that there is no information about protected species with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Foul Drainage

No information has been provided regarding the disposal of foul waters from the proposed development. We refer you to WG Circular 008/2018 on the use of private sewerage in new developments, and specifically paragraphs 2.3-2.5, which stress the

first presumption must be to provide a system of foul drainage discharging into a public sewer. We advise you the proposed development is in a publicly sewered area.

Please consult us again if foul sewage from the proposed development is to be disposed of by a private sewerage system.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not *rule out the potential for the proposed development to affect other interests*.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

Advice for the Developer

Pollution Prevention

Due to the proximity of the site to watercourses, all works at the site must be carried out in accordance with GPP5 and PPG6: 'Works in, near or over watercourses' and 'Working at construction and demolition sites' which are available on the following website: <http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

Yn gywir / Yours faithfully,
