For the attention of Matthew Phillips

Dear Matthew,

**BWRIAD / PROPOSAL: ERECTION OF CLASS A1 RETAIL UNIT
(CONVENIENCE STORE) WITH ACCESS AND PARKING**

LLEOLIAD / LOCATION: Royal British Legion, Watts Dyke, Llay, Wrexham

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 10/03/2020.

We have no objection to the proposed development as submitted and provide the following advice.

Protected Species

We note that there is no information about protected species with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018),

which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

Advice to Applicant

Pollution Prevention

The applicant is advised to follow the guidance within the Guidance for Pollution Prevention 6 'working at construction and demolition sites':

<https://www.sepa.org.uk/media/60125/ppg-6-working-at-construction-and-demolition-sites.pdf>

Any work which is to take place should be done so with pollution prevention in mind. Pollution prevention advice and guidance can be found via this link:

<http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

Should any pollution occur during the construction or operational phase, Natural Resources Wales should be notified via the incident hotline – 03000 65 3000.

Waste

Waste produced during the construction phase of your development must be dealt with appropriately and be in line with all relevant waste legislation including Duty of Care Regulations and Hazardous Waste Regulations. As part of your waste duty of care you must classify the waste produced:

- before it is collected, disposed of or recovered
- to identify the controls that apply to the movement of the waste
- to complete waste documents and records
- to identify suitably authorised waste management options
- to prevent harm to people and the environment.

Any waste removed from site will be subject to waste management controls. The links below provided information on how to classify waste and register as a waste carrier or hazardous waste producer:

<http://naturalresources.wales/waste/how-to-classify-and-assess-waste/?lang=en>

<http://naturalresources.wales/apply-for-a-permit/waste/?lang=en>

Further guidance can be found on the GOV website here:

<https://www.gov.uk/managing-your-waste-an-overview/duty-of-care>

Surface Water Drainage

We refer the developer to the Environment Agency (2017) 'Approach to groundwater protection' position statements which have been adopted by Natural Resources Wales. In particular the developer should be aware of the advice under Position Statements G11 (Discharges from areas subject to contamination) and G13 (sustainable drainage systems) applies to this development.

Car Park

If a car park is for more than 50 vehicles, then a fuel interceptor must be installed on the drainage from the car park – unless a Sustainable Urban Drainage System (SUDS) is implemented. PPG3 provides further guidance and is available on the following website:

<http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

Where SUDS is proposed for surface run-off from e.g. car parking, the applicant should be advised to refer to the Environment Agency's Position Statement G13 on groundwater protection available on the following link:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/692989/Environment-Agency-approach-to-groundwater-protection.pdf

Yn gywir / Yours faithfully,

Daniel Davies
