Hi Mared, I'm so sorry I was sure I'd responded to you on this. I was in the process of filing emails away but I've just searched everywhere and don't think I have? Yes I can confirm the details are the same as those sent to me for discussion initially and is what I refer to in my email to Miles attached, therefore I am satisfied with the assessment and proposed remediation works. Regards Angela

Hi Angela

I can imagine its tough juggling both at the moment! Get them to do a few laps of the garden as soon as they're up, try and tire them out early on!

Here are the details attached.

I'm off tomorrow, so have a good bank holiday weekend!

Mared

Hi Mared

I'm fine thanks, we're all ok here too, juggling homeschooling and work is a nightmare though! Are you OK?

I don't have access to the same Y drive as you so I can't see the folder you've said to look at. Is it possible to email me the documents?

thanks Angela

Hi Angela

How are you? I hope you and family are all ok!

The discharge of conditions application for the above site has been submitted, one of which is the contaminated land conditions.

I remember you saying that you'd been in consultation with the applicants contaminated land consultant and you were comfortable with the details they'd sent on to you to get the condition discharged.

Just so that we know the correct information has been submitted as part of the discharge of conditions application, would you mind having a look at what he's submitted please and let me know if you are ok with this?

The information is saved in Y:\Shared\CWDS\Shared\Planning Applications - and if you type in the search box 'Bwlchgwyn' it'll pull up the information/documents submitted as part of the application.

It's not been validated yet as it was submitted during lockdown, but it's just to get the ball rolling and make the agent aware if he needs to submit any additional detail.

Thanks

Mared
