23/07/2020

Dear Sir/Madam,

**PROPOSAL: AGRICULTURAL MACHINERY AND EQUIPMENT STORE
 (IN RETROSEPECT)**
LOCATION: FIELDS FARM, FIELDS LANE, WILLINGTON, MALPAS

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 08/07/2020. We note that the application for the proposed development is a retrospective one.

We have no objection to the proposed development as submitted.

We refer the applicant to the 'Advice to the Developer' section below.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

Advice for the Developer

Agriculture:

The facilities must comply with the Water Resources (Control of Pollution) (Silage, Slurry and Agricultural Fuel Oil) Regulations 2010. Site operators should ensure that there is no possibility of contaminated water entering and polluting surface or groundwater.

Please refer to the link below for further information:

<http://naturalresources.wales/guidance-and-advice/business-sectors/farming/good-farming-practice/?lang=en>

Environmental Management:

All works at the site must be carried out in accordance with PPG6: 'Working at construction and demolition sites' which are available on the following website:

<http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

The activity of importing waste into the site for use as, for example hardcore, must be registered with Natural Resources Wales as an exempt/permittable activity under the Environmental Permitting Regulations 2016. The developer should contact Natural Resources Wales to discuss the necessity for an exemption/permit for any material imported to and exported from the site.

If during construction/excavation works any contaminated material is revealed, then the movement of such material either on or off site should be done in consultation with Natural Resources Wales. Any waste excavation material or building waste generated in the course of the development must be disposed of satisfactorily and in accordance with Section 34 of the Environmental Protection Act 1990. Carriers transporting waste from the site must be registered waste carriers and movement of any Hazardous Waste from the site must be accompanied by Hazardous waste consignment notes.

Construction Waste:

Waste produced during the construction phase of your development must be dealt with appropriately and be in line with all relevant waste legislation including Duty of Care Regulations and Hazardous Waste Regulations. As part of your waste duty of care you must classify the waste produced:

- before it is collected, disposed of or recovered
- to identify the controls that apply to the movement of the waste
- to complete waste documents and records
- to identify suitably authorised waste management options
- to prevent harm to people and the environment.

Any waste removed from site will be subject to waste management controls. The links below provide information on how to classify waste and register as a waste carrier or hazardous waste producer:

<https://naturalresources.wales/permits-and-permissions/waste/?lang=en>

<https://naturalresources.wales/permits-and-permissions/waste/waste-permits/?lang=en>

Further guidance can be found on the GOV website here:

<https://www.gov.uk/managing-your-waste-an-overview/duty-of-care>

If you have any queries on the above, please do not hesitate to contact us.

Yours faithfully,

Joy Evans

Cynghorydd - Cynllunio Datblygu / Advisor - Development Planning
