4. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 1995 (or any order revoking, re-enacting that Order with or without modification), no further development shall take place under Classes A, B, C, D, E, F or G of Schedule 2 Part 1, other than the development hereby granted permission.

5. The vehicular parking and turning areas as shown on approved drawing(s) No(s). 16.5719/1 Rev B shall be fully laid out, surfaced and drained prior to first use of the development. These areas shall thereafter be permanently retained and kept free of any obstruction, and made available solely for the parking and turning of motor vehicles at all times.

6. No part of the development shall commence until a Construction Traffic Management Plan including provisions for contractor parking has been submitted to and approved in writing by the Local Planning Authority and the Plan as is approved has been fully implemented.

Approval: 27.01.2019 **Reference Number:** P/2019/0897

Approved Plan Dated: 17/01/20

7. No private surface water run off shall be permitted to flow from the development site onto the adjoining highway. An Aco drain or similar shall be provided across the approved access to intercept any such run off prior to first use of the development.

8. No land drainage run-off or surface water shall be permitted to discharge or connect to the public sewerage system, either directly or indirectly, and foul and surface water shall be drained separately from the site.

9. No part of the development shall commence until a scheme for the comprehensive and integrated drainage of the site indicating provision for foul water, surface water and land drainage has been submitted to and approved in writing by the Local Planning Authority. Prior to the submission of those details, an assessment shall be carried out into the potential for disposing of surface water by means of Sustainable urban Drainage Systems (SuDS) in accordance with the principles of sustainable drainage systems set out in Technical Advice Note 15: Development and Flood Risk, and the results of the assessment shall be submitted in writing to the Local Planning Authority. Where a SuDS scheme is to be implemented, the submitted details shall:

i) Provide information about the design storm period and intensity, the method employed to delay and control the surface water discharged from the site and the measures taken to prevent pollution of receiving ground water and/or surface waters;

Approved Drainage Plan Ref: 6896 / 12 Rev H - Surface Water SUDS Details

10. No part of the development shall be occupied until the sustainable drainage scheme for the site has been completed in accordance with condition no. 9. The sustainable drainage scheme shall be managed and maintained thereafter in strict accordance with the agreed management and maintenance plan.

11. Any garage erected under this permission shall be used only for a purpose incidental to the use of the dwelling as a single dwelling house provided that such use shall not preclude the garaging of a private motor car.

12. No part of the development shall commence until a scheme detailing the construction of the following has been submitted to and approved in writing by the Local Planning Authority:

1) Detailed layout, design, drainage and construction of a new footway / carriageway within and adjacent to the development site, and fronting 44 Mwyn Ffordd together with new boundary wall.

The scheme as is approved shall be fully implemented prior to first use of the development.

17. Within six months of the first use of the development, trees and shrubs shall be planted on the site in accordance with a scheme which has been submitted to and approved in writing by the Local Planning Authority.

18. The planting scheme implemented in connection with condition nos. 16 and 17 shall be permanently retained. Any planting which becomes severely damaged or seriously diseased, or is in poor physiological condition and/or are removed without the written permission of the Local Planning Authority shall be replaced within the next available planting season by trees or shrubs of similar size and species to those originally required to be planted.

19. Prior to first use of the development, an external lighting scheme compliant with the provisions of the Institution of Lighting Professionals and Bat Conservation Trust: Guidance Note 08/18: Bats and Artificial Lighting in the UK shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall:

- a) identify those areas and features on site that are particularly sensitive for wildlife and that are likely to cause disturbance in or around their foraging or commuting routes; and
- b) indicate where external lighting will be installed and the type of lighting to be used.

The scheme as is approved shall be fully implemented in strict accordance with the details as are approved and no other external lighting shall be installed on any part of the site.

20. No part of the development shall commence until the site has been inspected by a competent ecologist for signs of occupation by badgers. The results of this survey should be submitted to and approved in writing by the Local Planning Authority. The development shall commence no later than within one month of the approval of these survey results.

		Decision Date	01/07/2019

Further advice on compliance with condition nos. 26 and 27 may be obtained by contacting the Council's Environmental Protection Team on 01978 315733. Should the investigation identify contamination issues that may affect receptors other than the site users e.g. groundwater, then it is recommended that these works are also addressed in consultation with the Housing and Public Protection Department prior to commencement of works on site.

The applicant is advised that compliance with condition no. 24 does not provide an exemption from the statutory noise nuisance provisions of the Environmental Protection Act 1990. Any complaints received relating to noise from the development during the permitted hours may still be investigated using the Council's Standardised Procedure for Dealing with Noise Nuisance Complaints and legal action may be taken where appropriate.

Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of the notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Environment and Planning Department on 01978 315300 for further advice and information.

Applicants are advised that compliance with condition no. 25 does not provide an exemption from the statutory nuisance provisions of the Environmental Protection Act 1990. Under the Act dust from any type of activity can be judged to be causing a statutory nuisance to neighbouring properties. A legal notice can be served requiring that the dust nuisance is abated and failure to comply with the requirements of the notice can result in prosecution. The applicant should contact the Council's Housing and Public Protection Department on 01978 315300 for further advice and information.

The Applicant is advised that under the Environmental Protection Act 1990, dust from construction and/or demolition activities can be judged to be causing a statutory nuisance to neighbouring properties. A legal notice can be served requiring that any dust nuisance is abated and failure to comply with the requirements of the notice can result in prosecution. The applicant should contact the Council's Housing and Public Protection Department on 01978 315300 for further advice and information.

This permission is granted subject to the above conditions. Some conditions may require your attention prior to you carrying out any work on the proposal. These conditions are known as ""conditions precedent"". You should be aware that it is important that you comply with any ""conditions precedent"". If you do not, then any work you undertake on the development subject of this permission would not have planning permission.

The scheme of arboricultural supervision required in connection with condition no. 15 above shall make provision for a pre-commencement site meeting between the Local Planning Authority's Arboriculturist, the Developer/ Applicant/ Agent and their appointed Arboricultural Supervisor to agree matters of detail. It shall specify the frequency of arboricultural monitoring and reporting to the Local Planning Authority on the status of all tree protection measures throughout the course of the development and make provision for the submission and approval of a satisfactory arboricultural completion statement

This planning permission requires that development be carried out in accordance with the approved plans, including the construction of an estate road intended for adoption by the Council under the Highways Act 1980. It is essential therefore that the detailed proposals are submitted to the Highway Authority and confirmed as acceptable BEFORE development commences. Please contact the Highway Authority on telephone no. 01978 729690 for further guidance.

The applicant is advised that formal submission of the relevant section 38 adoption agreement, between the applicant and the Highway Authority, to the Local Planning Authority will allow the above condition no(s). 12 to be formally discharged in writing.
