Dear Sharon,

The Victorian Society have provided us with a copy of the additional information submitted regarding the new carport located adjacent to the Knolton Hall.

We consider the photomontage provided of the proposed carport reinforces our concerns that the hierarchy, and sense of separation between the house and the ancillary range are adversely affected by the construction of the carport in this location. The sense of separation between the historic uses is visible in the existing photograph of the site (jpeg provided titled 'Carport2').

We would like to reaffirm our **objection** to this application based on the form and design of the new carport and its impact on the setting of the grade II* listed hall. We would encourage the applicant and agent to explore alternative and less sensitive locations within the site to locate a carport.

We trust our comments are helpful to you.

Kind regards,
Elgan

Elgan Jones
