H. GROUNDS OF APPEAL

The grounds are set out in

It took from the 18th /august until 13 November to make a decision.

declined on green barriers, However a dairy of massive proportions have been built across the road from us this is green belt too in that case, and was only built last year, but has now failed and is left standing as an eyesore.

Allowing people to build extensions on their houses around the green barriers is acceptable but building a house on my garden is no different

Surface water drain off. My architect says that the stream at the back home the house will be sufficient water drain off for the property with a filter system on it.

The highways and neighbours have agreed that it would be a great place to build with no effect to the neighbourhood.

tree surveyors have also been informed and this was fine

development in the countryside this again falls under the Dairy that was built across the road and mine is of matchbox size compared with that.

brownfield land does not affect this as i have the original deeds that explains there was nothing built on this site apart from my home.

Parking when Designing the house off road parking was important so i had a double garage and enough for 6 other cars minimum

This house I am building is for my daughters future. I cant see any problems to concern neighbours, Highways or any other concerns.

i will work with the planning and building regulations to ensure we comply with all needs.

I am building a sustainable development in a rural area located where it will enhance the vitality of the rural community.

This allows the area in which we live to grown and thrive and will support local services.
