Hi Rachel,

Thanks for forwarding the plan to me. My comments are as follows:

- The proposed 'Wetland Wildflower Meadow Mix EM8' along the river bank is a particular concern. To sow this mix would require cultivation of the river bank, e.g. presumably removal of the existing vegetation as per the 'planting notes'. It is also shown all the way around the Badger sett. I would suggest that this is removed and shown as 'existing vegetation retained'.
- The proposed 'Wildflower Meadow Mix EM1' is shown extending to the Badger sett – please show this as extending to the existing site fence only (and again not on the river bank). Anything outside the site fence along the river bank should be 'existing vegetation retained'.
- The preparation of the wildflower mix areas by spraying glyphosate is again a particular concern, particularly close to the river.
- The EM1 mix is currently shown in the attenuation lagoon – would the EM8 mix be better suited here?
- 2 no. *Betula nigra* are shown on the river bank – please change to *Betula pendula*.
- Please remove *Cornus sanguinea* and *Viburnum opulus* from native shrub mix.

Should you wish to discuss any of the above please give me a call.

Kind regards

Tom Knight

Hi Tom,

Please find attached DEP's amended landscape proposals.
I am planning to submit this to the planners this afternoon following any comments you might have.

Kind Regards

Rachel Taylor
