Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cyllyn (the Company) gives this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and is not warranted as to its correctness or reliability in the event of excavations or other works made in the vicinity of the Company's apparatus. The error of location of apparatus is not warranted and any excavations made without the approval of the Company, as shown on the map, are made at the risk of the excavator. The Company may not disclose the whereabouts of water mains, surface water drains, lateral drains or other apparatus and any excavation made without the approval of the Company, as shown on the map, is made at the risk of the excavator. The Company may not disclose the whereabouts of water mains, surface water drains, lateral drains or other apparatus and any excavation made without the approval of the Company, as shown on the map, is made at the risk of the excavator. The Company may not disclose the whereabouts of water mains, surface water drains, lateral drains or other apparatus and any excavation made without the approval of the Company, as shown on the map, is made at the risk of the excavator.

Service pipes are not generally shown but their presence should be anticipated.
