P/2019/0151 – TOWERS DAY NURSERY, LLANGOLLEN ROAD, ACREFAIR

I have reviewed the SG LLP letter report dated 26 September 2019 in regard to the above planning application and can confirm that the gas risk assessment is sufficient and I concur with the findings – that no gas protection measures are required. I have no further comments on the planning application in relation to land contamination concerns therefore no land contamination related conditions are recommended.
