

Key

New Fencing: Paramesh 3M
2.43m high steel mesh fencing in green.

Existing Fencing

South and west boundaries to be planted with staggered mixed, native hedgerow species to provide a level of connectivity across the site, wildlife habitat and, to a limited extent, capture localised vehicle emissions.

Area to be prepared with minimum of 200mm topsoil and planted with 400 No. Prunus lauroceras 'Otto luyken' in 2l pots and covered with 50mm layer of coarse bark mulch.

Area to receive approved subsoil and sown with wildflower seed mix to ecologist's specification.

Newt mitigation area - see Ecology Management Plan for details.
