01/07/2019

Dear Mared,

TOWN AND COUNTRY PLANNING ACT 1990
DEDDF CYNLLUNIO GWLAD A THREF 1990

**BWRIAD / PROPOSAL: REFURBISHMENT OF GROUND FLOOR OFFICE AND
CHANGE OF UPPER FLOORS TO 6 NO. FLATS
LLEOLIAD / LOCATION: 31 High Street, Wrexham**

Thank you for consulting Natural Resources Wales (NRW) about the above, which was received on 16/05/2019.

We have significant concerns with the proposed development as submitted. We recommend that you should only grant planning permission if the scheme can meet the following requirement. Otherwise, we would object to this planning application.

Requirement 1: Protected Species: We advise that further information is required to assess the extent of adverse effects on bats and any avoidance or mitigation measures required.

Protected Species

We note that the bat avoidance scheme submitted in support of the above application considers the potential for bat to be present at the application site during the implementation of works. We also understand that access to the roof is currently not possible. We understand that the applicant has indicated that a bat survey will be undertaken.

The survey will be required prior to the determination of this planning application. The bats surveys must be undertaken during the main bat activity period and must include at least one bat emergence survey.

In the meantime, we are unable to give you any assurance that the proposal would not be likely to be detrimental to the maintenance of the population of the species concerned at a favourable conservation status in its natural range.

Please do not hesitate to contact us if you require further information or clarification on any of the above.

Our comments above only relate specifically to matters that are listed in our 'Consultation Topics' document (September 2018) which is published on our website: (<https://cdn.naturalresources.wales/media/686847/dpas-consultation-topics-august-2018-eng.pdf?mode=pad&rnd=131819256840000000>). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests, including environmental interests of local importance

Advice to Applicant

Pollution Prevention

All works at the site must be carried out in accordance with PPG6: 'Working at construction and demolition sites' which are available on the following website: <http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>
Pollution Prevention

Waste produced during construction

Waste produced during the construction phase of your development must be dealt with appropriately and be in line with all relevant waste legislation including Duty of Care Regulations and Hazardous Waste Regulations. As part of your waste duty of care you must classify the waste produced:

- before it is collected, disposed of or recovered
- to identify the controls that apply to the movement of the waste
- to complete waste documents and records
- to identify suitably authorised waste management options
- to prevent harm to people and the environment.

Any waste removed from site will be subject to waste management controls. The links below provide information on how to classify waste and register as a waste carrier or hazardous waste producer:

<https://naturalresources.wales/permits-and-permissions/waste/?lang=en>

<https://naturalresources.wales/permits-and-permissions/waste/waste-permits/?lang=en>

Further guidance can be found on the GOV website here:

<https://www.gov.uk/managing-your-waste-an-overview/duty-of-care>

The applicant should be advised that, in addition to planning permission, it is their responsibility to ensure that they secure all other permits/consents relevant to their development.

Yn gywir / Yours sincerely,

Daniel Davies
