Subject: P R Pugh applications

Hi Mared

It looks like our coments for planning applications:

P/2019/0515
P/2019/0516

Were sent before I was able to add my coments concerning the Air Quality assessments. I've read the two AQ reports (J0275/1/F1 & J0275/2/F1) which conclude that there:

- 1) Will be a below screening criteria for ecological receptors.
- 2) Will be well below the relevant regulatory objective levels.
- 3) The effects on human receptors have been modelled to be negligible to slight.

The findings of both reports are accepted.

Please let me know if you need anything else with regards to the above.

Regards

Paul Campini
