Hi Sharon,

I have just reviewed the submitted information with regards to the discharge of the surface water condition for the site. Within the documents is an application form for full SAB approval. This has not been directly submitted to the SAB, as such I was unaware of the application.

Prior to being able to comment on the discharge of condition, the application for SAB approval will need to be processed and determined. Once validated this will take a minimum of 7 weeks. I will try and make contact with the applicant to advise on the correct submission route for the application and appropriate fee etc..

Many thanks

Neil
