- ☐ Rule 6 (6)

What kind of representation are you making?

- ☐ Final Comments
- ☐ Proof of Evidence
- ☐ Statement
- ☐ Statement of Common Ground
- ☐ Written Statement of Evidence
- ☒ Interested Party/Person Correspondence

☐ Other

YOUR COMMENTS ON THE CASE

As a local resident I strongly object to this planning application due to the accumulative noise increase and extra production it will increase the amount of pollution. The extra traffic is also a huge reason why this should be declined. I notice that there is road monitoring equipment now in place and I'm guessing these figures will be used to support the application BUT it is sited the wrong side of the entrance so I will not reflect a fair reading as HGVS cannot approach or leave the site in that direction so they will not show up on the monitoring. The route to the site is already heavily used the roads and drainage are already struggling to cope with the amount of hgv's that use it and adding further vehicles will make these problems worse. The two schools in our town are sited within yards of the site entrance the increase in traffic will be adding to dirty air our children breathe.

As the Welsh Government has now declared an environmental emergency and has pledged to deliver a low carbon economy then surely declining this application is sending a huge message to industry that Wales is green and beautiful and we want it to stay that way.
