Er sylw/ For the attention of:
Sharon Holman

08/ 08/ 2017

Dear Ms Holman,

Elm Villa, Church Lane, Isycoed, Wrexham P/2017/0639
Outline Application For Residential Development (1 Dwelling) On Land
Adjoining Elm Villa

Thank you for consulting Natural Resources Wales regarding the above proposal,
received on 04/ 08/ 2017

Natural Resources Wales has no objection to the scheme.

Protected Species

As there are ponds in the vicinity of the proposed development site, we have identified the possibility that Great Crested Newts (GCNs) may be present or affected. Therefore, we recommend that your Authority screens the application to see if there is a reasonable likelihood of GCNs being present and the need for a GCN survey in accordance with Technical Advice Note 5: Nature Conservation and Planning (paragraph 6.2.2).

Please consult us again if the survey finds that GCNs are present at the site. In the meantime, we cannot confirm that the proposal would not harm or disturb GCNs, or a breeding site or resting place used by them. Nor can we confirm that the proposal would not be detrimental to the maintenance of a GCN population's favourable Conservation status in its natural range.

Foul Drainage

There is no information on proposed foul drainage plans but we note that the location of the site is outside a main sewered area.

Government policy states that, where practicable, foul drainage should be discharged to the mains sewer. Where this is not possible and private sewage treatment / disposal facilities are utilised, they must be installed and maintained in

Correspondence welcomed in Welsh and English

accordance with British Standard 6297 and Approved Document H of the Building Regulations 2000. You should also have regard to Welsh Office Circular 10/99 in respect of planning requirements for non mains sewerage.

The written consent of NRW or registration for exemption by the developer will be required for any discharge e.g. foul drainage to a watercourse/ditch etc, from the site and may also be required for certain categories of discharges to land. All necessary NRW consents, or exemptions must be obtained prior to works progressing on site. The applicant will need to apply for a Permit or Exemption, if they wish to discharge anything apart from uncontaminated surface water to a watercourse/ditch. They may also need to apply for a Permit from our National Permitting Team to allow certain discharges into ground. They must obtain any necessary Permit prior to works starting on site.

The Welsh Government has also advised that all septic tanks and small sewage treatment plant discharges in Wales will need to be registered. More information, including a step by step guide to registering, is available on our website www.naturalresourceswales.gov.uk / www.cyfoethnaturiolcymru.gov.uk

Environmental Management

Any waste excavation material or building waste generated in the course of the development must be disposed of satisfactorily in accordance with duty of care requirements under section 34 of the Environmental Protection Act 1990. The waste shall be transported using registered waste carriers to suitably permitted or exempt sites. Transfer notes shall be kept for each load for a minimum of 2 years. Please do not hesitate to contact us if we can be of any further assistance to you or if you wish clarification on the above.

Our comments only relate specifically to matters that are included on our checklist “Natural Resources Wales and Planning Consultations” (March 2015) which is published on our website: (<https://naturalresources.wales/media/5271/150302-natural-resources-wales-and-planning-consultations-final-eng.pdf>). We have not considered potential effects on other matters and do not *rule out the potential for the proposed development to affect other interests, including environmental interests of local importance.*

Any site owner/developer should be advised that, in addition to planning permission, it is their responsibility to ensure that they secure all other permits/consents relevant to their development.

Yours sincerely,

Joy Evans
