Hi Mared

Yes, the odour control measures detailed in Section 2.6 of the Odour Assessment are acceptable, but it is important to include the ZP03 condition to ensure system implementation and retaining requirements.

Regards Nick

Hi Mared

I've forwarded this to Nick as he responded to the consultation.

Regards

Paul

Hi Paul

For this one, you have recommended a condition to secure details of the proposed odour control/extraction system up front, for the implementation and retaining requirements.

Do you mean that the details submitted in regards to the odour control as set out in the Odour Impact Assessment and the Proposed Plans are acceptable, but that we just need a condition to ensure these are implemented prior to first use and that the details are retained for the lifetime of the development?

Thanks

Mared
