COMMENTS:	

NOTES:
Where the trees canopy extend outside the recommended BS 5837 tree root protection areas (RPA's) then this should be taken into account and the trees protected by protective fencing, so that tree canopies are either selectively pruned back or protected so as avoid any damage to trees during the development process.
Tree 9 has been added and the position is reasonably accurate.
Group 4 Tree Root protection Area (RPA) is estimated.

REV	DESCRIPTION	DATE
0		31st/Oct/18

BS: 5837 - TREE SURVEY SITE PLAN

KEY PLAN:

PLEASE REFER TO THE ATTACHED DOCUMENTS

1. TREE SURVEY SPREADSHEET DATA.
2. TABLE 1 - CASCADE CHART FOR CATEGORY GRADING. DATED: 29th Oct 18
3. ARBORICULTURAL METHOD STATEMENT, IMPACT ASSESSMENT AND TREE PROTECTION PLAN DATED: 29th Oct 18

THE RED CIRCLES AROUND THE TREES REPRESENT THE POSITION OF THE TREE ROOT PROTECTION AREAS (RPA'S). THE BROWN LINES AROUND THE TREES REPRESENT THE POSITION OF THE TREE PROTECTIVE FENCING.
