Attachments: 8150097008 plan.pdf; 8150097008-Planning App Letter.pdf

Good Afternoon,

Our Reference: 8150097008

Please find enclosed a copy of the requested plan and our general conditions, for your reference.

Our records show those pipes owned by Wales & West Utilities (WWU) in its role as a Licensed Gas Transporter (GT). Service pipes, valves, syphons, stub connections, etc. may not be shown but their presence should be anticipated. No warranties are therefore given in respect of it. They also provide indications of gas pipes owned by other GTs, or otherwise privately owned, which may be present in this area. This information is not information of WWU and WWU is unable to verify this information or to confirm whether it is accurate or complete.

Our plans do not indicate the route of the gas services. We normally advise if the route of the gas service needs to be known, then hand dug trial holes would need to be carried out on the assumed route to visually identify the service. The assumed route of the gas service is the most direct route from the gas main to the gas meter, but this can vary depending on the ground conditions etc. A gas service is averagely laid at around 375mm deep. Again, this is the assumed route and depth.

The plan must be printed in A3 size and will also need to be produced in colour. If this is not possible, we can send you a hard copy if requested.

Any questions please let me know.

Many Thanks

**Please note; as of Monday 3rd December, Wales & West Utilities has joined Linesearch. As a result, we will no longer be processing plans. These can be obtained through Linesearch - <https://www.linesearchbeforeudig.co.uk/>
If you have any queries, please do not hesitate to contact us at dig@wwutilities.co.uk**
