Written statement of intent

Applicant name: Tim Pluves
Company: Structure&Design Service LTD
Overview: Proposed alteration to road side hedge between properties (1 The Stables & Rodans Hall). Alteration to increase visibility splays for both driveways.
Intended works: Cut hawthorn hedge back, replant new hawthorn hedge behind current one. Hedge height will be similar to current one when it eventually takes its place. Ensuring the countryside's visual impact is not affected.
Significant qualities: The proposed alteration will increase road safety for for both properties and other motorist driving past the properties by giving drivers better visibility when entering/exiting the public road.
Timescales: The proposed works will be carried out prior to the bird nesting season (mid April) to ensure there is no disruption to the local wildlife.
Summery: The proposed works are intended to increase road safety for all, achieving this by increasing visibility for the road users. The proposed works do not plan on changing or impacting the local countryside scenery, similarly considering and not affecting local wildlife in the process.
