P/2018/0759 – LAND TO THE EAST OF MAESTEG, GWYNFRYN

Further to the email from John Haughton to Sharon Holman dated 30 May 2019 stating that the contaminated topsoil was removed to a suitable tip and replaced with imported uncontaminated topsoil from Dandy's, please can the following information be provided to complete the verification requirements of Condition 11:

- Confirmation that the topsoil was removed from all garden areas at the site and that new topsoil was placed in all garden areas.
- Details of which tip the waste soil was taken to and the transfer notes that shows this, I note the conveyance note states delivery to Whalley's Way, I am not aware of a licensed landfill site there.
- Clarification on what the two photos show, which plots and what part of the plots.
- Details of when the soil was imported and placed in the garden areas, the topsoil analysis from ALS is dated 01 June 2018, is this the soil that has actually been imported to garden areas or could it be from another stockpile at Dandy's yard?

A handwritten signature in black ink, appearing to read 'Angela Guy'.
