Section 78 Appeal at
Talwrn Farm, Talwrn Road, Legacy.

Dear Sir/Madam,

Please accept this letter outlining why
the appeal should be rejected.

The original permission awarded by the Inspectorate expressly stipulated the condition that no work could be undertaken during night time hours, weekends and public holidays. Despite this clear condition night time work has repeatedly been undertaken in the middle of the night which has awoken myself and neighbours.

The appeal in question is to remove this condition originally required. This condition was originally agreed for the good of the neighbourhood. How can this possibly be changed now?

I hope you can review the complaints made by people in the local area regarding repeated infringements on the conditions your organization imposed. Since the inception of this project, the local community have endured heavy goods vehicles on our country roads as well as the eye sore of the

large green barns through our windows. Incidenally both these points reflect further breaches. First the HGV's travel via a prohibited route and also the commitment to building screens to mask the construction have still not been built.

Yours Faithfully

I. V. Davies
