

PLA0040501

LEGEND(Representative of most common features)

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dier-Cyren Cyfnewydd ("the Company") gives this information as to the position of its underground apparatus by way of general guidance only, and the strict understanding that it is based on the best information available and is warranted as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The onset of localities before carrying out any excavations must entirely on you. The information which is supplied by the Company, is done so in accordance with statutory requirements of sections 104 and 190 of the Water Industry Act 1986. In the event of excavation and/or construction work being carried out in the vicinity of the Company's apparatus, therefore, it should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, latent drain or disposal main and any associated apparatus last before 1 September 1990, or if they do, they will only indicate their approximate location and depth. It should be understood that the provision of the furnishing of this information is entirely without prejudice to the provisions of the New Roads and Street Works Act 1991 and the Company's right to be compensated for any damage to its apparatus.

Service sites are not necessarily shown but insurance should be obtained.

EXACT LOCATIONS OF ALL APPARATUS
TO BE DETERMINED ON SITE.
