PROPOSED RISING MAIN
OUTFALL ROUTE

NTS

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dr. Cymru Cymru (The Company) gives this information as to the presence of an underground asset or as to the general location of an asset and does not warrant its accuracy. The user of this information is advised to verify its accuracy by other means. The information is provided as a guide only and should not be relied upon for any purpose other than for general information. The user of this information is advised to verify its accuracy by other means.
