Phil,

The attached tree protection plan (TPP) is now compatible with the submitted arboricultural method statement and, subject to the fencing being installed and maintained in accordance with the TPP, I would have no further concerns regarding the protection of the trees on site.

Regards

Jon Brewin

Jon,

Attached, plan of Acton Community Centre showing the scaled off distances of the Tree Root Protection Fencing.

I spoke with David Winlo of Urban Forestry Group to ask him to enter the distances onto his drawing, as they should have been included as standard.

He wanted to charge for doing this !!!!! As you can imagine, I wasn't too impressed, so told him to forget it ! &, I definitely won't be using him for any future arboricultural survey works etc.

Regards,

Gadge.
