Please can this be added to **P/2017/0863** as Contaminated Land comments. The reference in the subject box of email is a mistake!

Matthew

I can confirm that the Hydrock Addendum Remediation Verification Report dated August 2017 is sufficient and can therefore recommend that Condition 10 can be discharged.

Regards Angela

Angela,

I think you've already seen the details submitted with the above application (validation of the contamination works for the prison). If so, please can you do a consultation response to confirm that to me for this file?

Thanks

Matthew
