NB: Sewer symbol colour indicates the type.

RED	- Combined			Private Sewer Transfer
GREEN	- Surface Water			Lateral Drain
BROWN	- Foul			Inspection Chamber

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dar Cymru Cynryddig ("the Company") gives this information as to the position of its underground apparatus by way of a general guidance only and on the strict understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The onus of locating apparatus before carrying out any excavations rests entirely on you. The information which is supplied to you is based on the best information available to the Company at the time of the issue of the information. For 1991 which is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not disclose the existence of a water main, gas pipe, electric cable, or other underground apparatus. The Company does not warrant that the information it gives to you, the participants thereof including their position underground may not be accurate. It must be understood that the furnishing of this information is entirely without prejudice to the provision of the New Roads and Street Works Act 1991 and the provisions of the Public Health Act 1961.

Service pipes are not generally shown but their presence should be anticipated.
