

Dear Sir/Madam,

I am writing to object to the following appeal: **P/2018/0724 Talwrn Farm**

The applicant and his agent, Mr Pick, agreed to the conditions set out by the Inspector at the hearing. Numerous conditions that were agreed have since been broken two, of which were on the 7th & 20th May and these issues have been raised with the Enforcement Officer.

The applicant has regularly worked late at night and this includes instances up until 6am.

During the last 'clean out', I was awoken by loud noises which continued all night. This also included noises from clearly distressed chickens being transported into lorries with flashing lights. These were removed from the site between 4am and 6.30am. The noise and chicken noises kept me awake all night when I had to get up early to go to work.

The HGVs then went down Stryt Dwyll (Smithy Lane) Pentre Bychan despite planning officer giving the condition of not using this road for HGVs.

There was a also a vehicle movement this Boxing day.

This is totally unacceptable where the applicant has constantly shifted the goal posts and broken numerous conditions.

Yours Faithfully

Aled Davies
