Subject: Planning Application Maelor Poultry

Matthew,

I understand that 3 recent planning applications have been submitted by Maelor Poultry looking to relax the conditions imposed on their initial application. (3 applications P/2017/1032, P/2017/1037 and P/2017/1038)

Please see response from Business & Investment.

The Business & Investment team recently toured Maelor Foods modern and professional manufacturing facility. It was useful to gain a better understanding of their current and potential future business needs, and has provided us with an insight into their future plans in Wrexham.

We are conscious of the commitment Maelor Foods has already made to the Wrexham economy, already delivering an investment into the county of 20 million and securing 120 jobs of a variety of skills including engineering, managerial and technical.

The Business & Investment Team within the Housing and Economy Department, continue to be committed to securing investment and additional skilled employment, and welcome the further investment that Maelor Foods are planning to make in this exemplar UK site where the latest techniques and technology are being used.

It is encouraging to hear that the market for their products within the UK is strong, particularly the demand for Red Tractor Products (UK sourced raw materials) which supports the agricultural supply chain not only within our region but within the UK as a whole.

Their activity is clearly of local and national economic benefit and it is encouraging to see them choosing Wrexham as their base to further develop this state of the art facility, enhancing our economy and providing a wider range of employment opportunities.

Should you have any further questions please do not hesitate to contact me.

Rebecca Morgan
