Section 7's appeal

Dear Sir / Madam,

With regards to the planning appeal to buildings east of Bottom Road, the effect of this planning would be devastating to us on the road, with all the increased traffic - wagons, cement mixers etc we would not be able to get out of our drives, would not be able to walk down the lane.

Mr Jones does not even live in the village or even in the next

2.

one, we see him driving along with his friend taking pictures of the lull, a rare lull in the traffic. It is a single lane - one sees children walking down towards the lane some on bikes - this would not be possible - if you do care about us up in the North of Wales please please decline this appeal.

- It has made many of us sick with worry because we have had some noise with balers, tractors etc not the normal ones - these were huge I have had to go + stay with friends this past two weeks as not been able to eat or sleep,

Please, please listen to us,

Yours respectfully
