Date: 26-07-2017

Town and Country Planning Act 1990

Town and Country Planning (General Development Procedure) Order 1996

Re: P/2017/0607, LLANYPWLL FARM HOLT ROAD WREXHAM

DEMOLITION OF FORMER AGRICULTURAL BUILDINGS AND ERECTION OF REPLACEMENT BUILDING FOR PRIVATE (HOBBY) USE WITH ASSOCIATED CHANGE OF USE

Contaminated Land

ZP01A - GAS PROTECTION MEASURES

No part of the development shall commence until a scheme to deal with potential contamination at the site has been submitted to and approved in writing by the Local Planning Authority. This scheme shall include a phased investigation approach to identify the extent of contamination and any measures required to remediate the site, including post-development monitoring. Alternatively, gas protection measures should be installed in all new buildings. A methodology of these works (including specification details, design plans, installation, inspection and validation details etc...) should be submitted in writing to the Council for approval prior to any works commencing on site.

ZP02A - Verification Report - Contaminated Land

Each part of the site subject to the remediation under the scheme(s) approved as part of condition @@ shall not be occupied/used until a Validation Report has been completed in respect of that part of the site and submitted to and approved in writing by the Local Planning Authority.

A11NA - SITE CONTAMINATION

Further advice on compliance with condition no. @@ may be obtained by contacting the Council's Environment and Planning section on 01978 298989 or contaminatedland@wrexham.gov.uk. Should the investigation identify contamination issues that may affect receptors other than the site users e.g. groundwater, then it is recommended that

these works are also addressed in consultation with the Council's Environment and Planning section prior to commencement of works on site.

Environmental Protection

A23N - BURNING OF WASTE ADVICE

Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of such a notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Environment and Planning Department on 01978 298989 for further advice and information.
