Dear Mr Phillips,

Thank you for consulting Natural Resources Wales on the above application.

We have reviewed the planning application submitted to us, and from the information provided we do not consider that the proposed development affects a matter listed on our Checklist, *Natural Resources Wales and Planning Consultations* (March 2015): <https://naturalresources.wales/planning-and-development/planning-and-development/?lang=en>. We therefore do not have any comment to make on the proposed development.

You may wish to consult your ecologist in order to determine whether a protected species survey is required in support of the application. Where such a survey is requested, and subsequently received, please reconsult us.

Please note that our decision not to comment does not rule out the potential for the proposed development to affect other interests, including environmental interests of local importance.

The applicant should be advised that, in addition to planning permission, it is their responsibility to ensure that they secure all other permits/consents relevant to their development.

We trust that the above comments are of assistance however, should you have any queries, please do not hesitate to contact me.

Kind Regards,

Gareth Thomas
