FOR THE ATTENTION OF GLEN MOODY

Dear Glen

GOLDEN GROVES SITE ROSSETT WREXHAM

With regard to the re-use of the existing 1800mm diameter concrete perforated ring soakaways, we confirm having removed all existing contaminated material within the soakaways down to the natural loose/medium dense brown sand substrata and backfilled with clean single sized stone.

This is the substrata that Groundsolve Ltd carried out the percolation tests for the soakaway design on 6 October 2015.

Yours sincerely
