Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The permit is varied to change the total amount of discharged Phosphorus, expressed as P, from 11 milligrammes per litre to 2 milligrammes per litre, as an annual average.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number. It is not backdated before 6 April 2010.
