Hi Sharon

Apologies for the delay in responding. Thank you for forwarding the letter prepared by GroundSolve dated 31 October 2016. I can confirm that the details provided appear to demonstrate that the soil is suitable for garden areas, although it is noted that just one sample was taken and in addition no details of the origin of the soil has been provided.

Please can you request details of where the soil came from, depending on its source I will hopefully be able to advise the condition can be discharged.

Regards Angela

Hi Angela,

Further to your consultation response and the applicant's validation report (both attached), can I now discharge the planning condition?

Thank you
Sharon
