Dear Sir / Madam

Re: Planning application P/2016/0336

I have been contacted by several of my constituents with regard to their concerns in relation to the above planning application

Concerns were expressed at my Surgery on January 20th by a group of concerned residents of Chirk; they are worried that construction of the Melamine Facing Press has continued without planning permission in place. I have also written to Wrexham County Borough Council Planning Enforcement in relation to this matter, as well as to the Welsh Government. This situation is of great concern to my constituents who feel that construction has occurred with complete disregard to planning procedures.

My constituents also wish to make known their ongoing and serious concerns in relation to the impact of noise from the site, especially at night. I have requested that the sound monitoring equipment catchment zone is expanded to include areas of the locality where my constituents complain that they are disturbed by noise day and night.

Clwyd South constituents have also expressed concerns in relation to the odour and emissions from the site and inform me that they feel that planning consent for the Facing Press will further exacerbate conditions that are already a matter of local concern.

I would be grateful if would you please carefully consider the points raised by my constituents when assessing this planning application. Thank you for your assistance.

Yours faithfully,

SUSAN ELAN JONES MP
